EXECUTIVE SUMMARY

MCA student and aspiring Cloud and AI enthusiast with foundational knowledge of Linux, networking, Git, Python, SQL, cloud computing, and AI technologies. Hands-on experience developing and deploying web applications using Python Flask, MySQL, Aiven, Render and Vercel. Developed academic and personal projects involving application development, database integration, deployment, troubleshooting. A motivated fresher with a strong willingness to learn, take ownership, lead tasks, and accomplish responsibilities, making me a strong fit for entry-level Cloud Support, IT Infrastructure, and AI Associate roles.

TECHNICAL SKILLS

Programming language : Python

Databases : MySQL, SQL

Operating System : Linux, Linux Command Line, Basic System Administration

Networking : Networking Fundamentals, IP Addressing, MAC Address, ARP, DNS, SSH, SCP, Basic Network Troubleshooting

Version Control : Git, GitHub

web development : HTML, CSS

Cloud & Deployment : AWS Fundamentals, Cloud Computing Fundamentals, Vercel, Render, Aiven

AI : AI Fundamentals, AI-Assisted Tools

Development Tools : Visual Studio Code, PuTTY, WinSCP

Productivity & AI Tools : Microsoft Office, Microsoft Excel, AI-Assisted Document & Presentation Creation

PROJECTS

SMART PATIENT QUEUE & MEDICINE REMINDER SYSTEM

Python Flask | MySQL | Aiven | Render | GitHub

Developed a healthcare web application for managing patient appointments, digital queue tokens, and medicine reminders.

Integrated Python Flask with MySQL to handle patient registration, login, and application data.

Participated in an inter-college hackathon as Team Leader, gaining hands-on experience in backend development, db integration, deployment.

Used Aiven for cloud database access and deployed the application using Render. Links : [Live Demo](#) | [GitHub](#)

Weather Detection and Smart Recommendation System

HTML | CSS | Web Development | API | GitHub

Developed a weather-based application that provides weather information and smart recommendations based on user inputs.

Implemented application logic for processing weather data and give user-focused recommendations.

Gained practical experience in application development, data handling, debugging, and problem-solving. Link : [GitHub](#)

Personal Portfolio Website

HTML | CSS | FormSubmit | Vercel | GitHub

Developed a responsive personal portfolio website to showcase technical skills, projects, and learning experience.

Integrated FormSubmit for handling contact-form submissions.

Deployed the website on Vercel to gain practical experience in web hosting and deployment. Links : [Live Demo](#) | [GitHub](#)

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

Periyar Arts College | CGPA: 7.87/10

Master of Computer Applications (MCA)

2025 - PRESENT

Rajiv Gandhi College of Engineering and Technology
